EDUCATION

Ph.D Computer Science - Advisor: Baishakhi Ray **Sep 2019 - Present**
Columbia University in the City of New York

Research Focus - Automatic Modernization of Legacy Software Applications

B.E.(Hons) Computer Science **Aug 2015 - May 2019**
Birla Institute of Technology and Science, Pilani (BITS Pilani), India

GPA - 8.50/10

PROFESSIONAL EXPERIENCE

IBM Research Internship **Jun 2022 - Aug 2022**
Unit Test Generation for Database Access Code

- Worked with the Hybrid Cloud team (Manager - Raju Pavuluri) to generate unit tests for Java programs, with a focus on database access code.
- Traditional evolutionary test generation techniques struggle to generate unit tests for database access code. I researched techniques to track the flow of data through the program and explicitly map between database columns and variables in the code.

IBM Research Internship **Jun 2021 - Aug 2021**
Automated application refactoring

- Worked with the Hybrid Cloud team (Manager - Jin Xiao) to develop an AI algorithm to refactor legacy monolithic applications.
- Resulted in a publication, CARGO, that won a Distinguished Paper Award at ASE 2022. CARGO is now integrated into an IBM product.

Research Internship at IISc Bangalore **Aug 2018 - May 2019**
Bachelor's Thesis - Advisor: Prof. Partha Talukdar

- Worked at the Machine and Language Learning (MALL) lab, Indian Institute of Science (IISc).
- Worked on Graph Convolutional Networks (GCNs) and Knowledge Graphs. Resulted in 4 publications (links provided below).
